Nico Johnson (Political Science, Film Practice, 2015)
- eLearning Program Assistant
- Full-time, 40 hours per week
- Paid

What do you do as an intern at this organization?
Created original videos to be used for educational and training purposes for Boston EMS. Curated the organization's video and photo library and constructed portfolios in order to provide for a better training/learning experience.

How did you find your internship?
Jumbo Jobs

What do you enjoy most about your internship?
They brought me on as an intern, but also as a professional development resource. The people I work with hope to learn a lot from me about all facets of video production, which gives me a lot of responsibility, but also gives me space to be creative.

What do you find challenging?
There can be a lot of bureaucracy and one has to be aware of how the most minute things could send the wrong message.

What advice would you offer to someone who wants to make the most of an internship like yours?
Find things to do in your down time. In almost any internship, you'll have some time where you're not needed. In my spare moments, I practice computer coding; learn new video effects; and research the industry I work in.

About the Organization
Boston Public Health Commission
Boston, MA

The DelValle Institute provides high-quality all-hazards training and exercises to develop and enhance capabilities-based preparedness informed by the risk posed from the threats, vulnerabilities, and consequences associated with disasters. These offerings are delivered across the spectrum of first responders, public health and healthcare agencies, as well as community and private sector partners.
