Cubist Pharmaceuticals | www.cubist.com

- Anoushka Shahane (Biopsychology, Biotechnology/Cognitive and Brain Sciences, 2015)
- Bioinformatics and Computational Chemistry Intern
- Full-time, 40 hours per week
- Paid

What do you do as an intern at this organization?
All bioinformatics related work including programming in Python, using biotechnology tools like NCBI, Cytoscape, antiSMASH, Clustermine360. I also work in the lab doing genome sequencing analyses.

How did you find your internship?
Career Fair

What do you enjoy most about your internship?
The people I work with are incredible and Cubist has a very learning conducive atmosphere.

What do you find challenging?
The project itself that I have been working on is quite challenging. Not only grasping the content, but also figuring out how to design an algorithm and apply it was also a huge challenge.

What advice would you offer to someone who wants to make the most of an internship like yours?
Be sure to stick to deadlines!

About the Organization
Cubist Pharmaceuticals
Lexington, MA

Cubist Pharmaceuticals is a bio-pharmaceutical company focused on the research, commercial-ization and creation of pharmaceutical products that address unmet medical needs in the acute care environment.
