What do you do as an intern at this organization?
My work is mainly marketing and sales. As in most startups, I have to be very flexible and complete any task I’m assigned. Thus, my daily activities are varied.

How did you find your internship?
The Tufts ELS department hosted a startup panel where I met Laura Wallendal, co-founder and COO at EdTrips. I was impressed by Laura’s presentation and knew I wanted to work with her.

What do you enjoy most about your internship?
I love working closely with every member of the small team and learning from them. They have my best interests at heart and are always willing to teach me anything they can and discuss their work.

What do you find challenging?
The dynamic nature of my work here means that I am not always given a specific task. I have to self-motivate to find a project for myself and be productive.

What advice would you offer to someone who wants to make the most of an internship like yours?
Be flexible, motivated, and friendly. In the startup world, each member of the team is crucial to growth and success. Make sure that you are someone who can contribute to your company.
