Neil Stahl (PhD '85), *Senior Vice President of Research and Development Sciences, Regeneron Pharmaceuticals*

Moderator

Irene Abrams, *Director, Office of Technology Licensing, Brandeis University*

This year's inaugural Summit will provide exciting insights into emerging research and employment trends in biotech, pharmaceutical, and physical/life science research institutes. The event will kickoff with a keynote discussion led by Susan Windham-Bannister (PhD '77), which will be followed by a panel discussion with esteemed experts from industry, nonprofit and academic institutes.

After the formal program panelists and industry guests will co-host speed networking tables to provide insights about their careers and organizations like:
